1. Global Planning Timeline

2. What is a Special Planning Programme (SPP)?

2014-2015

- A chapter to be added to the Pointe-Claire Planning Programme
- A more detailed plan for a specific sector that deserves particular attention and that can include:
 - Specific planning goals, land use and land occupation densities
 - Zoning, subdivision and construction by-laws
 - A catalogue of intended works*, and their estimated costs for future years

**These intended works must be based on a diagnosis*

3. What is a diagnosis for an SPP?

From now to January 2014

- The first step in the development of the SPP
- The collection and analysis of data
- The establishment of a global portrait of the Village
- The identification of the issues

4. Differences diagnosis/SPP
