

Shadblow serviceberry – *Amelanchier canadensis*

75 trees 🌳

SIZE AT MATURITY	EXPOSURE	FOLIAGE
Height: 7 m (25 ft) Width: 4 m (15 ft)	Sun, partial shade	Summer: green to silver-green Fall: orange
Growth rate: medium Size: small		
Particularities: native tree, juicy and sweet edible fruit, attractive for birds		

Scarlet Sentinel red maple – *Acer rubrum 'Scarlet Sentinel'*

75 trees 🌳

SIZE AT MATURITY	EXPOSURE	FOLIAGE
Height: 12 m (40 ft) Width: 6 m (20 ft)	Sun	Summer: dark green Fall: yellow to orange – orange to red
Growth rate: fast Size: large		
Particularities: low maintenance tree, resistant to drought, beautiful fall colour		

Yellowwood – *Cladastris lutea*

50 trees 🌳

SIZE AT MATURITY	EXPOSURE	FOLIAGE
Height: 10 m (35 ft) Width: 6 m (20 ft)	Sun	Summer: bright green Fall: yellow to orange
Growth rate: medium Size: medium		
Particularities: panicles of fragrant white flowers		

Gladiator crabapple – *Malus 'Gladiator'*

50 trees 🌳

SIZE AT MATURITY	EXPOSURE	FOLIAGE
Height: 6 m (20 ft) Width: 3 m (10 ft)	Sun	Summer: dark purple Fall: yellow
Growth rate: medium Size: small		
Particularities: ideal for narrow sites, resistant to scab (fungal disease)		

Ironwood – *Ostrya virginiana*

50 trees 🌳

SIZE AT MATURITY	EXPOSURE	FOLIAGE
Hauteur: 10 m (35 ft) Width: 7 m (25 ft)	Sun, partial shade, shade	Summer: green Fall: yellow-orange
Growth rate: slow Size: medium		
Particularities: native tree, resistant to disease and pests, tolerant of drought and alkaline soils		

American basswood – *Tilia americana*

75 trees 🌳

SIZE AT MATURITY	EXPOSURE	FOLIAGE
Height: 20 m (65 ft) Width: 15 m (50 ft)	Sun, partial shade	Summer: dark green Fall: yellow
Growth rate: fast Size: large		
Particularities: native tree, small yellowish fragrant flowers		

Red oak – *Quercus rubra*

50 trees 🌳

SIZE AT MATURITY	EXPOSURE	FOLIAGE
Height: 22 m (70 ft) Width: 22 m (70 ft)	Sun	Summer: glossy dark green Fall: red
Growth rate: medium to fast Size: large		
Particularities: native tree, the leaves can persist dry into winter		

Eastern larch – *Larix laricina*

25 trees 🌳

SIZE AT MATURITY	EXPOSURE	FOLIAGE
Height: 20 m (65 ft) Width: 10 m (35 ft)	Sun	Summer: light green to dark green Fall: golden yellow
Growth rate: medium Size: large		
Particularities: native tree, hardy		

Colorado blue spruce – *Picea pungens 'Glauca'*

50 trees 🌳

SIZE AT MATURITY	EXPOSURE	FOLIAGE
Height: 20 m (65 ft) Width: 8 m (25 ft)	Sun	Blueish-green needles
Growth rate: medium Size: large		
Particularities: hardy, ideal for windbreak		

Scots pine – *Pinus sylvestris*

50 trees 🌳

SIZE AT MATURITY	EXPOSURE	FOLIAGE
Height: 18 m (60 ft) Width: 10 m (35 ft)	Sun	Green needles
Growth rate: medium to fast Size: large		
Particularities: tolerance to urban pollution, drought and salt		

**TO MARK EARTH DAY,
THE CITY OF PONTE-CLAIRE IS OFFERING YOU A TREE.**
